

Safari eBook Quick Start Guide

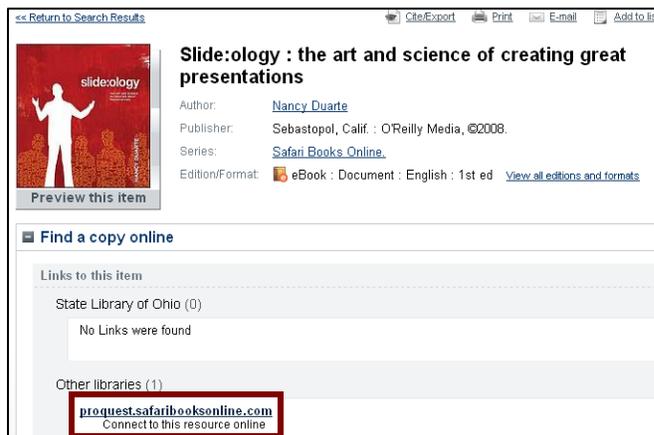

The Safari eBook collection offers access to thousands of eBooks relating to business and technology. All you need is a library card from the State Library of Ohio to get started finding these great materials.

Finding Materials:

There are two ways to find materials through Safari eBooks.

Library Catalog:

- The first is by using our library catalog located at www.library.ohio.gov to search for books. You will see an eBook symbol on the records for these materials.
- Click the "Find a Copy Online" link in these records to access the eBook while inside the State Library of Ohio and many state agency buildings.

Through OhioLINK:

While many state agency buildings are automatically recognized by Safari, you will need a library card from the State Library of Ohio to access Safari books from those buildings not recognized or from home and other remote locations. To access through OhioLINK:

- From the library homepage, select "Access OhioLINK Resources" and then select "Access OhioLINK Resources from Any Other Location".
- Select "State Library of Ohio" as your institution.
- Enter your last name and the last nine digits of your State Library of Ohio library card.
- Under "Databases Listed By Name", select the letter "S" and click on Safari eBooks.

OhioLINK Databases

Databases provided by OhioLINK and by State Library of Ohio

Electronic books in computer science, information technology, business, and related fields. ([more...](#))

Using Safari:

You can find books on the Safari website by searching for a title or browsing by subject.

Once you have found a book you would like to read, click the "Start Reading Online" button to view the full eBook.

Use the Table of Contents along the left side of the page to navigate to a specific chapter. Use the arrow keys on the top right to page through the book. The "Full Screen" button enlarges the viewing area and the magnifying glasses to enlarge or reduce the text size. You can also print or email the book using the icons along the top of the page.
