## State Employee Library Card

Your key to books, journals, online courses, and other information & materials you can't get anywhere else.

In addition to looking good in your wallet, a State Library of Ohio library card has many advantages for state employees.

**Books** - Like any resident in Ohio, a state employee card gives you access to books. For state employees, we will send our books and materials from the 49 million volume collections from the OhioLINK consortium libraries directly to your desk.

**eBooks** - The State Library of Ohio is part of the [Ohio eBook Project](#) which provides eBooks and eAudiobooks to patrons from many libraries across the state. A state employee library card grants access to thousands of items that can be downloaded to computers, mp3 players, Kindles®, Nooks®, iPads® and many other e-reader devices.

**OhioLINK databases** - Your State Library card grants access to 140 research databases through OhioLINK. These databases include many **full text popular and academic journal articles, government records, images and eBooks**. Some state agencies have direct network access to OhioLINK databases in their offices, but many do not. If your agency doesn't have direct network access, you can use your State Library card to ensure that these resources are always available.
